### **Bijay Kumar Kandel**

Bijay Kumar Kandel is visiting professor of Business and Management Information Systems in Business School at the Kathmandu University. He earned his Ph.D. in Management from Sri Sri University. He is also a Fellow member of British Computing Society. He has over 13 years of teaching and research experience. His teaching interests cover a range of topics including; Business Computing, Management Information System, Strategic Management, International Business Management and Business Entrepreneurship.

Dr. Kandel research interests are Technology Management, Use of Information Technology (IT) in Small Family Business, IT in South Asian countries, Innovation and Business Research Methodologies. He is particularly interested in the discovery of the impact of new technologies on rural business owners to determine if they are included or excluded from new technology trends. He has published widely on a broad range of subjects. His current research focuses on global information systems, systems development, the impact of information technologies, and technology issues in small family businesses.
