**Protopsaltis**, Associate Professor and Director EdPolicyForward: The Center for Education Policy, George Mason University, USA.

The Communication Institute of Greece is an International non-profit association, established to promote research, education and to facilitate communication among academics and people interested by the future of Communication and Education, around the world. It was established in 2003 in France and in 2013 in Greece as an independent association of academics and researchers who consider that education and intercultural communication can ameliorate our lives: educating ourselves is what we need to develop in a fruitful environment.

We keep growing, thanks to all of our endorsers and Ambassadors! As a result of this growth, our academic supporters, keep growing as well. So research and publication opportunities multiply. We are therefore very happy to announce the launch of our new international peer-reviewed journal, the Journal of Education, Innovation and Communication (JEICOM), where papers from this conference will also be considered for publication.

We would like to thank all our Ambassadors for their trust and commitment, and highlight our desire for all the different conferences we organize, to become opportunities for Academics, Professionals, Researchers and interested people from all over the world, to meet, exchange ideas on their research, discuss the future developments in their disciplines and contribute to education's future.

We would like to thank all the participants, our endorsers and the members of the conference organizing and academic committee and the administration staff of the Communication Institute of Greece, Ioanna (Anni) Eirini, Stavroula, Aria, and Roza, for putting this conference together and making this 'miracle' of interaction and Intercultural communication a reality.

Let's fix an appointment again for EDU2020, 3-7 May 2020, in Athens, Greece!
