**Athanasios Podaras**

Athanasios Podaras, Ph.D, is an assistant professor in business informatics at the Technical University of Liberec, Faculty of Economics, Department of Informatics, in Liberec, Czech Republic. He received an MSc diploma in System Engineering and Informatics from the Department of Information Engineering, Faculty of Economics and Management, Czech University of Life Sciences, Prague, Czech Republic, in 2005, and a Ph.D. in information management in 2010 from the same department. In 2013, he was a Post-Doctoral Researcher with the Department of Informatics, Faculty of Economics, Technical University of Liberec, Czech Republic. He has worked as an IT Specialist, Programmer, an IT Project Manager, and a Business Continuity/ISO Project Quality Assurance Team Member with the Software Applications Division, Alpha Bank, Greece, from 2007 to 2013. He has published multiple articles in peer-reviewed journals and international conferences and several book chapters. His research interests mainly focus on databases, data mining, business intelligence, information management, UML, business process requirement analysis, business continuity management, IT system recovery in crisis situations and IT project management. Part of his research focuses on ontological communication models for ensuring business continuity and timely restoration of critical systems in emergency situations
