Dr. Angelo Bravos is the principal and founder of Bravos Group, an Information Technology consulting group with presence in Chicago and in Athens. His company was established in 2005 to focus on solving technology problems for small to medium size business. Dr. Bravos has a long history of entrepreneurial activities in Greece and the USA and has been part of many national and international successful businesses.

Angelo was born in Athens Greece and has roots in Trikala and Kilini. He immigrated to the USA in the early 80s to get his education and holds a BA in Mathematics & Physics, a Masters in Computer Science and a Ph.D. in Artificial Intelligence from Illinois Institute of Technology.

Dr. Bravos has worked for fortune 500 companies, such as Xerox, Ameritech, NEC Technologies, Lucent, TD Waterhouse and the CME Group, where he developed new products and managed technical projects, people and resources to make these companies more successful. He is always looking for entrepreneurial opportunities for successes and enjoys teaching and learning new things.

Dr. Bravos joined the United Hellenic Voters of America (UHVA.org) a few years ago and he has served on the National Supreme Board as the President. He has published numerous papers and has made countless presentations to industry trade shows and conferences.
